If you pay someone to take care of your dependent (defined as being under the age of 13 at the end of the tax year or incapable of self-care) in order to work or look for work, you may qualify for a credit of up to \$1,050 or 35 percent of \$3,000 of eligible expenses.

For two or more qualifying dependents, you can claim up to 35 percent of \$6,000 (or \$2,100) of eligible expenses. For higher income earners the credit percentage is reduced, but not below 20 percent, regardless of the amount of adjusted gross income.

Child Tax Credit

For tax year 2017, the child tax credit is \$1,000. A portion of the credit may be refundable, which means that you can claim the amount you are owed, even if you have no tax liability for the year. The credit is phased out for those with higher incomes.
